

I am firmly against the proposals sent in by the ARRL and NCVEC. As I do not believe in GRANDFATHERING anyone into a higher class without taking any additional written tests. I feel that both proposals are just giving Ham radio licenses away, and WILL NOT help ham radio in the long run, but WILL further it along the same lines that CB radio fell into. I have no issues with doing away with CW as a requirement, but feel that written exams should be taken and required to hold a valid license for the class they will hold.

PLEASE do NOT just GIVE these license away.
